Product Information

Overview

Originally released March 2016

Unlocked, GSM Only, Model A1662

4-inch Retina display with IPS technology

A9 chip with embedded M9 motion coprocessor

Built-in 1960 mAh battery

Touch ID

Apple Pay

12MP camera and 4K video

What's in the Box

iPhone SE

EarPods with 3.5 mm Headphone Plug

Lightning to USB Cable

USB Power Adapter

Documentation

System Requirements

Apple ID (required for some features)

Internet access*

Working with iTunes on a Mac or PC requires:

Mac OS X 10.10.5 or later

PC: Windows 7 or later

* Some features require iOS 9.3 or later and an Apple ID; see apple.com/ios/feature-availability

Environmental Specifications

Operating ambient temperature: 32° to 95° F (0° to 35° C)

Storage temperature: -4° to 113° F (-20° to 45° C)

Relative humidity: 5% to 95% noncondensing

Operating altitude: tested up to 10,000 feet (3000 m)

iPhone SE is designed with the following environmental goals in mind:

Arsenic-free display glass

Mercury-free and PVC-free

Brominated flame retardant–free

PVC-free

Beryllium-free

Recyclable aluminum enclosure

Features

Design. A beloved design. Now with room to breathe.

iPhone SE has the same elegant, durable design as iPhone 6s. It's built with a 4.7-inch display and a strong, yet lightweight, aluminum enclosure. And it's designed to fit comfortably in your hand. Inside, the Touch ID sensor is ready to recognize your fingerprint in a fraction of a second. And it's available in five beautiful finishes, including new Rose Gold.

Technology. The most powerful 4-inch phone ever.

Inside iPhone SE is the A9 chip, the same advanced chip that's in iPhone 6s. It delivers desktop-class performance in a mobile device. It has a 64-bit architecture that brings you spectacular speed and graphics. And it has the embedded M9 motion coprocessor to measure your every step, stair, and mile.

Camera. The only camera you'll ever need.

With a 12-megapixel camera, you can capture 4K video and shoot 8-megapixel photos just like you can on iPhone 6s. That includes shooting Live Photos and using Auto HDR.

FaceTime HD camera with Retina Flash lets you look great in selfies.

The Retina display isn't just a place to see your photos. It's also a place to see your FaceTime HD camera. Powered by the A9 chip, it delivers the same Retina Flash technology as iPhone 6s. It's the first front camera that turns the Retina display into a soft, even flash. And it's the front camera that makes the ambient light look so beautiful in your selfies.

Cloud Photo Library. All your photos and videos, always and automatically up to date.

Cloud Photo Library stores every photo and video you take, and lets you get to-date on all your devices. So the photos you take on your iPhone automatically appear on your Mac or iPad.

Touch ID. Advanced security. Right at your fingertip.

Touch ID makes unlocking your iPhone and making purchases faster and easier than ever. The Home button recognizes your fingerprint from multiple angles, and stores that data securely in the A9 chip, so you can unlock your iPhone and authorize purchases with a touch. And you can even use it to sign in to apps you download.

Apple Pay. Fast, easier, more secure than ever.

Touch ID isn't just for unlocking your iPhone. It's also the most secure way to pay with Apple Pay in stores, within apps. In stores, just hold your iPhone near the reader with your finger resting on Touch ID. And in apps, just choose your card details and select Apple Pay at checkout.

Battery. Lasts all day. And then some.

With an easy-to-use interface, iPhone SE is designed to help you get the most out of every minute. Its mobile operating system and the A9 chip work together to help you get amazing battery life. And with beautifully on your iPhone, so even more of your battery is left.

Apps that help you do more and do less.

Apps help you accomplish a variety of essential apps right out of the box, including Safari, Mail, Maps, Photos, Music, Calendar, and Notes. Work makes it easy to access the files you need for work. Health helps you keep track of your daily activity. And FaceTime you can video chat, using the front or rear camera. Siri helps you be more productive. And iMessage lets you send messages, photos, and videos to your friends and family on iPhone, iPad, and iPod touch, and on a Mac or PC with a helpful iCloud user.

Siri. Your intelligent assistant.

Siri is your personal assistant, helping you do more just by asking. Ask Siri to send a message, search the web, get directions, and more. Siri knows you and your world, so you can ask Siri to search your photos library to find just the right photo.

Tech Specs

Capacity

32GB

128GB

Processor

A9 chip with 64-bit architecture

Embedded M9 motion coprocessor

Display

Retina display

4-inch (diagonal) widescreen LED-backlit Multi-Touch display

1136-by-640-pixel resolution at 326 ppi

1400:1 contrast ratio (typical)

Full sRGB standard

500 cd/m2 max brightness (typical)

Fingerprint-resistant oleophobic coating

Support for display of multiple languages and characters simultaneously

Power and Battery

Built-in rechargeable lithium-ion battery

Charging via USB to computer system or power adapter

Fast charge capacity: Up to 50 percent in 30 minutes*

Talk time: Up to 13 hours on 3G; Up to 14 hours on LTE; Up to 14 hours on WiFi

Internet use: Up to 10 hours on LTE, 3G, or WiFi

Standby: Up to 10 days*

Wireless audio playback: Up to 50 hours*

*Depending on network configuration

Hardware

Nano-SIM

Apple SIM

Wi-Fi (802.11a/b/g/n/ac with 2x2 MIMO on 5 GHz)

Bluetooth 4.2 wireless technology

NFC with reader mode

Apple Pay

Lightning connector

Headphone jack

Built-in speaker

M9 motion coprocessor

Nano-SIM

iPhone SE is not compatible with existing micro-SIM cards.

Audio/Video Calling

FaceTime audio*

Voice over LTE (4G LTE)*

*Requires an Internet connection.

Audio

Audio formats supported: AAC (8 to 320 Kbps), Protected AAC (from iTunes Store), HE-AAC, MP3 (8 to 320 Kbps), MP3 VBR, Audible (formats 2, 3, 4, Audible Enhanced Audio, AAX, and AAX+), Apple Lossless, AIFF, and WAV

User-configurable maximum volume limit

Sensors

Accelerometer
